

Cimitra Windows User Administration Practice

Instructions for importing local Cimitra Pre-Made Actions [PowerShell 7 Only]

(1.) IMPORT ACTION FILES

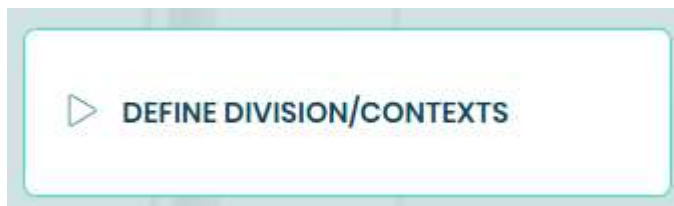

IMPORT THESE ACTION JSON FILES

DEFINE DIVISIONS/CONTEXTS

IMPORT THIS FILE

C:\cimitra\scripts\cimitra_win_user_admin\import\DIVISION_Action.json

RESULTS

GROUPS

IMPORT THIS FILE

C:\cimitra\scripts\cimitra_win_user_admin\import\GROUPS_Action.json

RESULTS

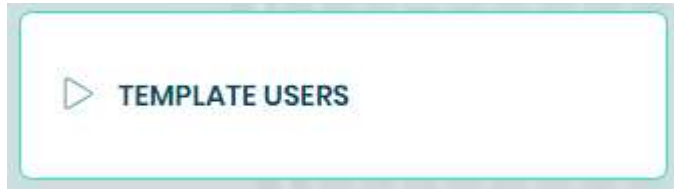

TEMPLATE USERS

IMPORT THIS FILE

C:\cimitra\scripts\cimitra_win_user_admin\import\TEMPLATE_USER_LOCATION_Action.json

RESULTS

(2.) MODIFY CIMITRA ACTIONS

MODIFY ALL ACTIONS

Modify all three Actions to assure accurately reflect:

- The Active Directory Contexts(OUs) you want to administer with Cimitra
- The Active Directory Groups you want to administer with Cimitra
- The Active Directory Users you have designated at Template users in the Contexts where you want to allow Users to be created.

(3.) SAVE TO EXTERNAL PARAMETER FILES

After you have properly modified the parameters associated with the 3 Actions you imported, export each of their parameters as shown.

User Defined Switches / Parameters

DIVISIONS 		 
Label *	<input type="text" value="DIVISIONS"/>	
Switch	<input type="text" value="-ContextIn"/>	
Required	<input checked="" type="checkbox"/>	

User Defined Switches / Parameters

GROUPS 		 
Label *	<input type="text" value="GROUPS"/>	
Switch	<input type="text" value="-GroupGUIDsIn"/>	
Required	<input type="checkbox"/>	

TEMPLATE 		 
Label *	<input type="text" value="TEMPLATE"/>	
Switch	<input type="text" value="-NewUserTemplate"/>	
Required	<input checked="" type="checkbox"/>	

Once you are done with this step there should be three files in the your **Windows Downloads directory** named:

Cimitra_Param_DIVISIONS.json

Cimitra_Param_GROUPS.json

Cimitra_Param_TEMPLATE.json

(4.) RUN THE SETUP UTILITY

Run the Script: C:\cimitra\scripts\cimitra_win_user_admin\setup.ps1

Choose the action to: **Create Action Files**

(5.) CREATE FOLDER STRUCTURE IN CIMITRA

[CREATE THIS FOLDER AND SUBFOLDER STRUCTURE] (Create | Folder)

 **WINDOWS ADMINISTRATION**

⚡ **ADMIN ONLY ACTIONS**

 **USER ONBOARDING**

 **PASSWORDS & ACCESS**

(6.) IMPORT ACTIONS INTO CIMITRA

CREATE CIMITRA ACTIONS IN FOLDERS USING THE IMPORT FEATURE]

(Create | Import)

A. [⚡ ADMIN ONLY ACTIONS Folder - IMPORT THESE ACTIONS]

IMPORT ALL FILES IN

C:\cimitra\scripts\cimitra_win_user_admin\import\admin_only_actions

B. [ USER ONBOARDING Folder - IMPORT THESE ACTIONS]

IMPORT ALL FILES IN

C:\cimitra\scripts\cimitra_win_user_admin\import\user_onboarding

C. [CREATE THIS FOLDER UNDER THE  USER ONBOARDING FOLDER]

IMPORT ALL FILES IN

C:\cimitra\scripts\cimitra_win_user_admin\import\user_onboarding
\common_user_changes

D. [ PASSWORDS & ACCESS Folder - IMPORT THESE ACTIONS]

IMPORT ALL FILES IN

C:\cimitra\scripts\cimitra_win_user_admin\import
\passwords_and_access

ALL DONE!
